

The Third Annual Chicago Scholarship Benefit Dinner

The Sister Thea Bowman Black Catholic Education Foundation provides more than just scholarships, it provides:

- A formalized Mentoring Program where we retain 98% of our students
- An education in the Catholic Intellectual Tradition that helps students come to a deeper understanding of who they are as a human being
- Unique, formative, African American experiences
- Catholic evangelization that shapes the whole person

"I was drawn to examine and accept the Catholic faith because of the day-to-day lived witness of Catholic Christians who first loved me, loved me, then invited me to share with them in community, prayer and mission."
